A LOOK INSIDE

“Designed with both intention and intuition, these home spaces give you the freedom to make your own stories.”

Opal's story progresses from the exterior into the interior, continuing the play of contemporary with mid-century revival. It's our take on **soulful minimalist**- maximizing space and comfort with tasteful interior arrangements, for an all-round home wellness.

“Functionality and style are equally important, ensuring the spaces we design today continue working into the future”

We've envisioned a lifestyle for you that reflects a free-flowing attitude, with plenty of space and light, continuous exterior views and additions like double height ceilings or terraces- uniting indoor and outdoor harmoniously.

Our design for one-bed layouts offer plenty of space and privacy, while studios keep it simple and flexible with murphy beds. Carefully laid out **built-in appliances, modular kitchens, space saving storage/laundry closet** and additional powder rooms bring home a new level of functionality. Besides the top of the line home appliances such as **Bosch** or equivalent and **wire-free smart home** functionality guarantee your ease of living.

Some
features we
think you'll
love

- Sophisticated modern fixtures.
- Luxurious marble-inspired tiles flooring.
- Integrated smart lighting seamlessly embedded within ceilings and bespoke cabinetry.
- Rich natural wood veneer or laminate finishes paired with stone countertops and premium tile backslashes.
- Refined accents of bold, complementary hues in eggshell paint finishes.

Our thoughtfully curated concept imbues simplicity and elegance, with an unexpectedly playful edge. Taking inspiration from the moody warmth of 70's revival with wooden laminates and veneers, we incorporated elements that add character to the home.

While we give you a concept- you can take any direction and turn it into a beautiful, layered space you'll love to live in.

CRYSTAL

“We thought about what luxury means to us.

Luxury means intention, it means clarity.

Its the story we tell through design and how those stories become reality.

Its immaculate execution in meticulous detail.

To us luxury is more than aesthetics and concept, its a methodology.”
